

Abby Hanc

Program: Arcadia Study Abroad
College: Roger Williams University
Major: Psychology
Country: Greece

I had the most amazing time abroad studying in Athens! I absolutely fell in love with Greece in so many different ways. I have learned so much about myself because of my time abroad. The lifestyle and culture in Greece is very different from what I was expecting but I grew to love it and really love the people as well. I have become so much more independent because of my time in Athens. I feel like after living in a country for four months and having to learn the language and learn the different ways that people show their emotions that I can really conquer anything in the states. Everything that I had to do in Greece was five times harder than it would have been for me to do at home but I appreciate that now because it has encouraged me to grow as a person. Thank you so much for allowing me to optimize my time in Greece and have the ability to travel around the country and to be able to experience other countries as well!
